Agency: Protein / Client: Protein
 Printable (large format in house) calendar application

Prototype Facebook application to generate Protein design calendar with parameters within Facebook
 addition of special/public holidays, moon phase, FB birthdays etc.

I wrote a script to generate the layout as an SVG file from the user's Facebook calendar data, which could then be converted to PDF for printing. One interesting issue was mapping the specific colours in the design from SVG (RGB) to PDF for print (CMYK)

PRE-FALL 2013 DEBUT CAPSULE COLLECTION

The 'Parade' is Janvier's debut bag, inspired by the notoriously glamorous gamblers of the 1970s. A personification of our brash Casino fantasy, the style is loud, sexy, and audacious, with just the right amount of attitude. Beautifully crafted in black, rose, or gold-plated metals, this statement bag is embellished with Janvier coins and houses an inner drawstring pouch that comes in an array of delectable colours and textures. There is a style to suit every Janvier girl.

Hats

The hat is the crowning glory of any outfit and always striving to look their best, the British love fine headwear.

There are an infinite variety of styles of hat available around the world, but the ones mentioned here are probably the best known and loved for their quintessential Britishness.

Probably the most famous for being something that is only associated with the British gentleman is the Bowler Hat or as it's sometimes known as a Derby Hat. Lock & Co the hatters created it in 1850 for Thomas Coke, the 2nd Earl of Leicester, to dress his servants. It then became a common site amongst city businessmen in London but nowadays it is not as common to see around in the context of work.

The Top Hat, (or Stovepipe hat as it's sometimes referred), was worn by gentlemen here in the 19th and early 20th Centuries. Nowadays it is only really worn with Morning or Evening Dress and is seen often as a symbol of aristocratic Britishness.

Nike AF1 25th Anniversary Pendant Set

by Daisuke Sakaguchi

To mark the 25th birthday of the iconic Air Force 1,

Daisuke Sakaguchi has been commissioned by Nike to

create a limited edition luxury collection of 25 pendants.

The collection has been designed to reflect the

spirit of the original Air Force 1 and the Air Force 2,

as well as the impact and cultural following it has

generated over the past 25 years. The collection also

maintains Daisuke's trade mark style and expresses his

passion for the subcultures and lifestyles that surround

the show.

The collection is a puzzle series of 25 pendants that,

when put together, form the all-important number 25.

Each pendant is totally unique and individually designed

by Daisuke where the statement shapes are reminiscent

of the original Air Force 1 and 2.

The combination of laser and acid etching, the face of each

pendant is adorned with Daisuke's interpretation of the

distinctive Air Force 1 sole. The reverse of each pendant

is a blank, polished and shiny 925 Sterling Silver.

Each pendant is complete with its own 925 Sterling Silver

chain.

Daisuke has been able to combine his unique and

original jewellery designs with the style and recognition

of the Air Force 1 and 2 as well as the Air Max 1.

Both styles sit neatly together in this distinct new

product continuing both of their reputations for precision

and accuracy.

This collection started its preview at Comme des

Garcons Dover Street Market then travelled to the Nike

Milan Show, where it completed its tour at the home of

a private collector.
